\*\*The Input Hold Period is when Payroll Input must hold on entering additional ePAs that would impact the period being processed for payment. ePAs not entered prior to the Input Hold Period will not be reflected on the payroll in process. Please refer to the ePA Guidelines and Payroll Schedule page for additional information. **NOTE:** To avoid possible overpayment to an employee that is terminating in the same month as their last pay date, please contact Payroll Services at 205-348-8219 if the ePA will not make it to Payroll Input by the ePA Deadline for the pay date.
